OFFICE OF THE DEPUTY COMMISSIONER
4721
20 SEP 1927
HASSAN

Sir,

With reference to Local & Legislative Secretary's letter No. L.3515/L.B. 32-24-39, dated 24th Novr. 25, stating that the Chief Engineer, on being consulted in the matter of constructing an Armco culvert at a cost of Rs 5817/ in 3/15 of Manjarabad-Kodlipet road near Kerodi Ferry, considered that the damages done to the old bridge could not legitimately be attributed to floods and that a girder bridge would be cheaper etc., I have the honor to state that a copy of the above said letter having been sent to the Executive Engineer, Hassan for information he in his No.119, dated 9th Feby. 26 forwarded for countersignature an estimate amounting to Rs 9440/ for constructing a girder bridge across the said halla. This estimate was placed before the District Board at their meeting held on 4th and 5th Jany. 26 and they passed the following resolution:-

> "The Board is of opinion that the work should be put in hand without further delay. It is apprehended that the cost of a girder bridge may be higher than the the Armco culvert now proposed. Anyhow the repairs should not be delayed further. As regards the cost, the Board is still of opinion that this is a flood damage work and Government may be requested to kindly view the matter with sympathy and grant necessary contribution for the purpose".

The fact that this damage was due to heavy floods can be ascertained by a kind perusal of the report of the Executive Engineer dated 9th Feby. 1926, accompanying the estimate which

(9

Report to accompany the estimate for Constructing Girder bridge in 3/15 of Manjarabad Kodlipet road.

- - - -

There is a 10 feet arched masonry bridge in 3/15 of Manjarabad Kodlipet road across the Kerodihalla which drains of the water of the adjoining paddy fields to the Hemavathy river road bank at this place forms the High flood bank of the river .T splayed wing walls on the down stream site of the bridge have been completely washed out while these on the up stream side are badly - - cracked and greatly damaged . The arch has bulged out and the abut - ments consequently have been pushed out of plumb. Thus the general - condition of the bridge is very uncertain and unsafe and the traffic is now temporarily kept up by construction of a temporary log bridge

It is now proposed to dismantle this arched bridge and build in its stead a 10 feet girder bridge with masonry abutments. As stones are very difficult to get in this part it is proposed to use stone masonry only for the foundation basement portions of the abut ments and the returns cement-mortar being used for the masonry since it has to be in damp soil for the major portion of the year. The base ment will rest over a 2 feet slab of cement concrete and the remaining portions of the abutment and the returns are to be with brick in sur mortar.

3 girders of 10'x5" are placed 5' feet apart with trough plate flooring giving a total width of 15 feet of road way. The wing are of return type and necessary protection to bank in the shape of revetment has been provided.

As the stream is a perinial one and the soil at the site is slushy the unwatering of foundation is expected to present consider able difficulty and as such a lump sum provision of Rs 500/- is made the estimate for bailing out water from the foundations. The rate - - provided for stone in cement is Rs 1/- per cft which is quite moderate as stones are to be got to the place from a distance of nearly ½ mile The other rates provided in the estimate are the usual ones in the locality and may kindly be sanctioned.

OFFICE OF THE DEPUTY 28 NOV. 1927 HASSAN

1386-27-B

Sir,

In continuation of my letter No.182-27, dated 14th Septr. 1927, in the matter of constructing a Girder bridge at a cost of Rs 9,440/ across Kerodi halla in 3/15 of Manjarabad-Kodlipet road, I have the honor to state that a sum of Rs 4,720/ has been set apart for the purpose in the District Fund budget for 1927-28 and this has been retained by Government when sanctioning the budget.

2. Extract from the proceedings of a meeting of Officers held on 17th September 1927 at Hassan (copy of which herein enclosed) in which they have set apart of Rs 4,000/ and Rs 1000/ for constructing Kerodi bridge and for improving the Sravana-Belgola-Nagamangala road respectively from the allotment made out of irrigation cess funds, to this District for the current year.

The District Board have at their meeting held on 29th and 30th October 1927 approved of the resolution of the standing committee whichwas resolved that the allotment of Rs 4,000 made by the Deputy Commissioner, towards constructing Kerodi bridge Rs 1000/ , for improving Sravanabelgola-Nagamangala road is approved.

I, therefore request that you will be so good as to kindly

obtain early sanction of Government for the construction of the bridge at Government cost or to increase the grant by Rs. 720/ to make good of the deficit of half the Government share of cost for the work.

A copy of the resolution of the Board is enclosed.

I have the honour to be,
Sir,
Your most obedient servant,

President,
District Board, Hassan.

Sir,

With reference to your letter No.L.2768/L.B. 86-27-2, dated 18th Novr. 1927, requesting me to forward the design for the Armoo culvert proposed to be constructed at 3/15 of Manjarabad-Kodlipet road near Kerodi ferry etc., I have the honor to forward herewith the design and the estimate for the same as received from the Executive Engineer.

In this connection, I wish to point out that owing to the urgency and the importance of the work, the following resolution was passed at a meeting of the officers, held in the Court Hall of the Deputy Commissioner's office, at Hassan on the 17th Septr. 1927:-

1 Kerodi Bridge work:- "Rs 4000 to be set apart for this work out of the grant of Rs 5000 for this District with an equal amount of contribution from the District Board".

This is to be met from the provision of Rs 5000 allotted for roads and bridges of this District out of the Irrigation cess fund, the balance of Rs 1000 to be utilised for improving the Sravanabelgola-Nagamangala road, as per Government Order No.R.1229-34/L.R.454-26-9, dated 16th August 1927.
